(a) Calculated based on average shares outstanding during each period.

(b) Less than \$0.01 per share.

(c) Not annualized.

(d) Annualized.

(e) Reflects the expense ratio excluding any waivers and/or reimbursements. Expense waivers and/or reimbursements would decrease the total return had such reductions not occurred.

Note 1. Organization

The Polaris Global Value Fund (the “Fund”) is a diversified portfolio of Forum Funds (the “Trust”). The Trust is a Delaware statutory trust that is registered as an open-end, management investment company under the Investment Company Act of 1940, as amended (the “Act”). Under its Trust Instrument, the Trust is authorized to issue an unlimited number of the Fund’s shares of beneficial interest without par value. The Fund commenced operations June 1, 1998 after it acquired the net assets of Global Value Limited Partnership (the “Partnership”), in exchange for Fund shares. The Partnership commenced operations on July 31, 1989. The Fund seeks capital appreciation.

The Fund included herein is deemed to be an individual reporting segment and is not part of a consolidated reporting entity. The objective and strategy of the Fund is used by the Adviser, as defined in Note 3, to make investment decisions, and the results of the operations, as shown on the Statement of Operations and the financial highlights for the Fund is the information utilized for the day-to-day management of the Fund. The Fund is party to the expense agreements as disclosed in the Notes to the Financial Statements and there are no resources allocated to the Fund based on performance measurements. Due to the significance of oversight and their role, the management committee of Polaris Capital Management, LLC, the Fund’s adviser, is deemed to be the Chief Operating Decision Maker.

Note 2. Summary of Significant Accounting Policies

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification Topic 946, “Financial Services – Investment Companies.” These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the fiscal period. Actual amounts could differ from those estimates. The following summarizes the significant accounting policies of the Fund:

Security Valuation – Securities are recorded at fair value using last quoted trade or official closing price from the principal exchange where the security is traded, as provided by independent pricing services on each Fund business day. In the absence of a last trade, securities are valued at the mean of the last bid and ask price provided by the pricing service. Forward currency contracts are generally valued based on interpolation of forward curve data points obtained from major banking institutions that deal in foreign currencies and currency dealers. Shares of non-exchange traded open-end mutual funds are valued at net asset value per share (“NAV”). Short-term investments that mature in sixty days or less may be recorded at amortized cost, which approximates fair value.

Pursuant to Rule 2a-5 under the Investment Company Act, the Trust’s Board of Trustees (the “Board”) has designated the Adviser as the Fund’s valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser is subject to the oversight of the Board and certain reporting and other requirements intended to provide the Board the information needed to oversee the Adviser’s fair value determinations. The Adviser is responsible for determining the fair value of investments for which market quotations are not readily available in accordance with policies and procedures that have been approved by the Board. Under these procedures, the Adviser convenes on a regular and ad hoc basis to review such investments and considers a number of factors, including valuation methodologies and significant

POLARIS GLOBAL VALUE FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

unobservable inputs, when arriving at fair value. The Board has approved the Adviser's fair valuation procedures as a part of the Fund's compliance program and will review any changes made to the procedures.

The Adviser provides fair valuation inputs. In determining fair valuations, inputs may include market-based analytics that may consider related or comparable assets or liabilities, recent transactions, market multiples, book values and other relevant investment information. Adviser inputs may include an income-based approach in which the anticipated future cash flows of the investment are discounted in determining fair value. Discounts may also be applied based on the nature or duration of any restrictions on the disposition of the investments. The Adviser performs regular reviews of valuation methodologies, key inputs and assumptions, disposition analysis and market activity.

Fair valuation is based on subjective factors and, as a result, the fair value of an investment may differ from the security's market price and may not be the price at which the asset may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotes.

GAAP has a three-tier fair value hierarchy. The basis of the tiers is dependent upon the level of various "inputs" used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted prices in active markets for identical assets and liabilities.

Level 2 - Prices determined using significant other observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Short-term securities are valued at amortized cost, which approximates market value, and are categorized as Level 2 in the hierarchy. Municipal securities, long-term U.S. government obligations and corporate debt securities are valued in accordance with the evaluated price supplied by a pricing service and generally categorized as Level 2 in the hierarchy. Other securities that are categorized as Level 2 in the hierarchy include, but are not limited to, warrants that do not trade on an exchange, securities valued at the mean between the last reported bid and ask quotation and international equity securities valued by an independent third party with adjustments for changes in value between the time of the securities' respective local market closes and the close of the U.S. market.

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The aggregate value by input level, as of June 30, 2026, for the Fund's investments is included at the end of the Fund's Schedule of Investments.

Security Transactions, Investment Income and Realized Gain and Loss – Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Non-cash dividend income is recorded at the fair market value of the securities received. Foreign dividend income is recorded on the ex-dividend date or as soon as possible after determining the existence of a dividend declaration after exercising reasonable due diligence. Income and capital gains on some foreign securities may be subject to foreign withholding taxes, which are accrued as applicable. Interest income is recorded on an accrual basis. Premium is amortized to the next call date above par, and discount is accreted to maturity using the effective interest method and included in interest income. Identified cost of investments sold is used to determine the gain and loss for both financial statement and federal income tax purposes.

Written Options – When a fund writes an option, an amount equal to the premium received by the fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gain from written options. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written options are non-income producing securities.

The values of each individual written option outstanding as of June 30, 2026, if any, are disclosed in the Fund’s Schedule of Investments.

Purchased Options – When a fund purchases an option, an amount equal to the premium paid by the fund is recorded as an investment and is subsequently adjusted to the current value of the option purchased. If an option expires on the stipulated expiration date or if the fund enters into a closing sale transaction, a gain or loss is realized. If a call option is exercised, the cost of the security acquired is increased by the premium paid for the call. If a put option is exercised, a gain or loss is realized from the sale of the underlying security, and the proceeds from such sale are decreased by the premium originally paid. Purchased options are non-income producing securities.

The values of each individual purchased option outstanding as of June 30, 2026, if any, are disclosed in the Fund’s Schedule of Investments.

Foreign Currency Translations – Foreign currency amounts are translated into U.S. dollars as follows: (1) assets and liabilities at the rate of exchange at the end of the respective period; and (2) purchases and sales of securities and income and expenses at the rate of exchange prevailing on the dates of such transactions. The portion of the results of operations arising from changes in the exchange rates and the portion due to fluctuations arising from changes in the market prices of securities are not isolated. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Foreign Currency Transactions – The Fund may enter into transactions to purchase or sell foreign currency contracts and options on foreign currency. Forward currency contracts are agreements to exchange one currency for another at a future date and at a specified price. A fund may use forward currency contracts to facilitate transactions in foreign securities, to manage a fund’s foreign currency exposure and to protect the U.S. dollar value of its underlying portfolio securities against the effect of possible adverse movements in foreign exchange rates. These contracts are intrinsically valued daily based on forward rates, and a fund’s net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is recorded as a component of NAV. These instruments involve market risk, credit risk, or both kinds of risks, in excess of the amount recognized in the Statement of Assets and Liabilities. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates. Due to the risks associated with these transactions, a fund could incur losses up to the entire contract amount, which may exceed the net unrealized value included in its NAV.

Distributions to Shareholders – The Fund declares any dividends from net investment income and pays them annually. Any net capital gains and foreign currency gains realized by the Fund are distributed at least annually. Distributions to shareholders are recorded on the ex-dividend date. Distributions are based on amounts calculated in accordance with applicable federal income tax regulations, which may differ from GAAP. These differences are due primarily to differing treatments of income and gain on various investment securities held by the Fund, timing differences and differing characterizations of distributions made by the Fund.

Federal Taxes – The Fund intends to continue to qualify each year as a regulated investment company under Subchapter M of Chapter 1, Subtitle A, of the Internal Revenue Code of 1986, as amended (“Code”), and to distribute all of its taxable income to shareholders. In addition, by distributing in each calendar year substantially all of its net investment income and capital gains, if any, the Fund will not be subject to a federal excise tax. Therefore, no federal income or excise tax provision is required. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the period, the Fund did not incur any interest or penalties. The Fund files a U.S. federal income and excise tax return as required. The Fund’s federal income tax returns are subject to examination by the Internal Revenue Service for a period of three fiscal years after they are filed. As of June 30, 2026, there are no uncertain tax positions that would require financial statement recognition, de-recognition or disclosure.

Income and Expense Allocation – The Trust accounts separately for the assets, liabilities and operations of each of its investment portfolios. Expenses that are directly attributable to more than one investment portfolio are allocated among the respective investment portfolios in an equitable manner.

Redemption Fees – A shareholder who redeems or exchanges shares within 180 days of purchase will incur a redemption fee of 1.00% of the current NAV of shares redeemed or exchanged, subject to certain limitations. The fee is charged for the benefit of the remaining shareholders and will be paid to the Fund to help offset transaction costs. The fee is accounted for as an addition to paid-in capital. The Fund reserves the right to modify the terms of or terminate the fee at any time. There are limited exceptions to the imposition of the redemption fee. Redemption fees incurred for the Fund, if any, are reflected on the Statements of Changes in Net Assets.

Commitments and Contingencies – In the normal course of business, the Fund enters into contracts that provide general indemnifications by the Fund to the counterparty to the contract. The Fund’s maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote. The Fund has determined that none of these arrangements requires disclosure on the Fund’s Statement of Assets and Liabilities.

Note 3. Fees and Expenses

Investment Adviser – Polaris Capital Management, LLC (the “Adviser”) is the investment adviser to the Fund. Pursuant to an investment advisory agreement, the Adviser receives an advisory fee, payable monthly, from the Fund at an annual rate of 1.00% of the Fund’s average daily net assets.

POLARIS GLOBAL VALUE FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

Distribution – Foreside Fund Services, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group) (the “Distributor”), acts as the agent of the Trust in connection with the continuous offering of shares of the Fund. The Fund does not have a distribution (12b-1) plan; accordingly, the Distributor does not receive compensation from the Fund for its distribution services. The Adviser compensates the Distributor directly for its services. The Distributor is not affiliated with the Adviser or Atlantic Fund Administration, LLC, a wholly owned subsidiary of Apex US Holdings LLC (d/b/a Apex Fund Services) (“Apex”) or their affiliates.

Other Service Providers – Apex provides fund accounting, fund administration, compliance and transfer agency services to the Fund. The fees related to these services are included in Fund services fees within the Statement of Operations. Apex also provides certain shareholder report production and EDGAR conversion and filing services. Pursuant to an Apex Services Agreement, the Fund pays Apex customary fees for its services. Apex provides a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer and an Anti-Money Laundering Officer to the Fund, as well as certain additional compliance support functions.

Trustees and Officers – Each Independent Trustee’s annual retainer is \$60,000 (\$70,000 for the Chairman). The Audit Committee Chairman receives an additional \$5,000 annually. The Trustees and the Chairman may receive additional fees for special Board meetings. Each Trustee is also reimbursed for all reasonable out-of-pocket expenses incurred in connection with his or her duties as a Trustee, including travel and related expenses incurred in attending Board meetings. The amount of Trustees’ fees attributable to the Fund is disclosed in the Statement of Operations. Certain officers of the Trust are also officers or employees of the above named service providers, and during their terms of office received no compensation from the Fund.

Note 4. Fees Waived

The Adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, dividend and interest expense on short sales, acquired fund fees and expenses, proxy expenses and extraordinary expenses) to 0.99%, through at least April 30, 2027 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. Other Fund service providers have agreed to waive a portion of their fees and such waivers may be changed or eliminated with the approval of the Board of Trustees of the Trust. For the period ended June 30, 2026, fees waived were as follows:

<u>Investment Adviser Fees Waived</u>	<u>Other Waivers</u>	<u>Total Fees Waived</u>
\$ 559,493	\$ 27,474	\$ 586,967

The Adviser may be reimbursed by the Fund for fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such payment is made within three years of the fee waiver or expense reimbursement, and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to exceed the lesser of (i) the then-current expense cap, or (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed. As of June 30, 2026, \$2,846,902 is subject to recapture by the Adviser. Other waivers are not eligible for recoupment.

POLARIS GLOBAL VALUE FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

Note 5. Security Transactions

The cost of purchases and proceeds from sales of investment securities (including maturities), other than short-term investments during the period ended June 30, 2026, were \$72,289,237 and \$79,104,081, respectively.

Note 6. Sector Concentration Risk

Sector concentration risk is the possibility that securities within the same sector will decline in price due to sector-specific market or economic developments. If the Fund invests more heavily in a particular sector, the value of its shares may be especially sensitive to factors and economic risks that specifically affect that sector. As a result, the Fund's share price may fluctuate more widely than the value of shares of a mutual fund that invests in a broader range of sectors. Additionally, some sectors could be subject to greater government regulation than other sectors. Therefore, changes in regulatory policies for those sectors may have a material effect on the value of securities issued by companies in those sectors.

Note 7. Beneficial Ownership

The beneficial ownership, either directly or indirectly, of more than 25% of a Fund's voting securities creates a presumption of control. As of June 30, 2026, the Fund had an individual shareholder account comprising approximately 45.16% of the total shares outstanding of the Fund. Shareholders with a controlling interest could affect the outcome of proxy voting or direction of management of a Fund.

Note 8. Federal Income Tax

As of June 30, 2026, the cost of investments for federal income tax purposes is substantially the same as for financial statement purposes and the components of net unrealized appreciation were as follows:

Gross Unrealized Appreciation	\$	247,103,982
Gross Unrealized Depreciation		<u>(17,973,499)</u>
Net Unrealized Appreciation	\$	<u>229,130,483</u>

As of December 31, 2025, distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$	1,036,885
Undistributed Long-Term Gain		2,193,911
Net Unrealized Appreciation		179,938,640
Other Temporary Differences		<u>23,373</u>
Total	\$	<u>183,192,809</u>

The difference between components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to real estate investment trusts, passive foreign investment company transactions, wash sales, and return of capital on equity securities.

Note 9. Subsequent Events

Subsequent events occurring after the date of this report through the date these financial statements were issued have been evaluated for potential impact, and the Fund has had no such events.

Statement Regarding the Basis for the Board's Approval of Investment Advisory Contract (Item 11 of Form N-CSR)

At the March 19, 2026 Board meeting, the Board, including the Independent Trustees, considered the approval of the continuance of the investment advisory agreement between Polaris Capital Management, LLC (the "Adviser") and the Trust pertaining to the Fund (the "Advisory Agreement"). In preparation for its deliberations, the Board requested and reviewed written responses from the Adviser to a due diligence questionnaire circulated on the Board's behalf concerning the services provided by the Adviser. The Board also discussed the materials with Fund counsel and, as necessary, with the Trust's administrator. During its deliberations, the Board received an oral presentation from the Adviser, and the Independent Trustees were advised by independent Trustee counsel.

At the meeting, the Board reviewed, among other matters: (i) the nature, extent and quality of the services provided to the Fund by the Adviser, including information on the investment performance of the Fund; (ii) the costs of the services provided and profitability to the Adviser of its relationship with the Fund; (iii) the advisory fee and total expense ratio of the Fund compared to a relevant peer group of funds; (iv) the extent to which economies of scale may be realized as the Fund grows and whether the advisory fee enables the Fund's investors to share in the benefits of economies of scale; and (v) other benefits received by the Adviser from its relationship with the Fund. In addition, the Board recognized that the evaluation process with respect to the Adviser was an ongoing one and, in this regard, the Board considered information provided by the Adviser at regularly scheduled meetings during the past year.

Nature, Extent and Quality of Services

Based on written materials received, a presentation from senior representatives of the Adviser, and a discussion with the Adviser about the Adviser's personnel, operations and financial condition, the Board considered the quality of services provided by the Adviser under the Advisory Agreement. In this regard, the Board considered information regarding the experience, qualifications and professional background of the portfolio managers at the Adviser with principal responsibility for the Fund's investments as well as the investment philosophy and decision-making process of the Adviser and the capability and integrity of the Adviser's senior management and staff.

POLARIS GLOBAL VALUE FUND**OTHER INFORMATION**JUNE 30, 2026

The Board considered the adequacy of the Adviser's resources. The Board noted the Adviser's representations that the firm is in stable financial condition, that the firm is able to meet its expense reimbursement obligations to the Fund, and that the firm has the operational capability and necessary staffing and experience to continue providing high-quality investment advisory services to the Fund. Based on the presentation and the materials provided by the Adviser in connection with the Board's consideration of the renewal of the Advisory Agreement, among other relevant factors, the Board concluded that, overall, it was satisfied with the nature, extent and quality of services to be provided to the Fund under the Advisory Agreement.

Performance

In connection with a presentation by the Adviser regarding its approach to managing the Fund, the Board considered the performance of the Fund compared to its primary benchmark index, the MSCI World Index. The Board observed that the Fund outperformed the primary benchmark index for the one-year period ended December 31, 2025, and for the period since the Fund's inception on July 31, 1989, and underperformed the primary benchmark for the three-, five-, and 10-year periods ended December 31, 2025. The Board noted the Adviser's representation that the Fund's exposure to South Korea as well as the Fund's underweight exposure to the United States market, which underperformed most global markets during the year, contributed most to the Fund's outperformance during the one-year period. The Board noted the Adviser's representation that the outperformance of growth stocks relative to value stocks over the last decade had contributed most to the Fund's relative underperformance over longer time periods.

The Board also considered the Fund's performance relative to an independent peer group identified by Strategic Insight, Inc. ("Strategic Insight Peers") as having characteristics similar to those of the Fund. The Board observed that, based on the information provided by Strategic Insight, the Fund outperformed the average of its Strategic Insight Peers for the one-year period ended December 31, 2025, and underperformed the average of its Strategic Insight Peers for the three-, five-, and 10-year periods ended December 31, 2025. The Board noted the Adviser's representation that the Fund's underperformance relative to the Strategic Insight Peers over longer time horizons, could be attributed, at least in part, to the Fund's underweight exposure to the U.S. markets during certain periods when U.S. markets flourished, and that the Fund incurred relatively less risk than peers as measured by portfolio beta. The Board also noted the Adviser's representation that the Fund's underweight exposure to the U.S. markets contributed to the Fund's relative outperformance during 2025 due to the relative underperformance of the U.S. markets and the decline in the U.S. Dollar relative to other currencies.

In consideration of the Adviser's investment strategy and the foregoing performance information, among other considerations, the Board determined that the Fund could benefit from the Adviser's continued management of the Fund.

Compensation

The Board evaluated the Adviser's compensation for providing advisory services to the Fund and analyzed comparative information on actual advisory fee rates and actual total expenses of the Fund's Strategic Insight Peer group. The Board noted that, although the Adviser's net advisory fee rate was higher than the median of the Strategic Insight Peer group, the Fund's net total expense ratio was among the lowest of the Strategic Insight Peer group. The Board also noted the Adviser's representation that the advisory fee rate charged to the Fund was reasonable relative to the fee rates charged by the Adviser

POLARIS GLOBAL VALUE FUND**OTHER INFORMATION**JUNE 30, 2026

in connection with its management of other pooled investment vehicles and separate accounts with investment objectives similar to the Fund. The Board further noted that the Adviser was currently waiving a portion of its advisory fee in an effort to keep the Fund's expenses at levels believed by the Adviser to be attractive to investors. Based on the foregoing and other applicable considerations, the Board concluded that the Adviser's net advisory fee rate charged to the Fund was reasonable.

Costs of Services and Profitability

The Board evaluated information provided by the Adviser regarding the costs of services and its profitability with respect to the Fund. In this regard, the Board considered the Adviser's resources devoted to the Fund as well as the Adviser's discussion of costs and profitability of its Fund activities. The Board noted the Adviser's representation that the Adviser does not maintain separately identifiable profit and loss data specific to the Fund but that the Adviser believed that its profitability was reasonable, including relative to the Adviser's other clients, and that it incurs additional expenses for regulatory and compliance obligations for its Fund activities compared to the expenses attributable to the Adviser's other management activities. In addition, the Board noted the contractual expense cap in place for the Fund and the Adviser's reimbursements. Based on these and other applicable considerations, the Board concluded that the Adviser's profits attributable to management of the Fund were reasonable.

Economies of Scale

The Board considered whether the Fund could benefit from any economies of scale. In this regard, the Board considered the Fund's fee structure, asset size, net expense ratio, and the fees of comparable advisers, recognizing that an analysis of economies of scale is most relevant when a fund has achieved a substantial size and has growing assets and that, if a fund's assets are stable or decreasing, the significance of economies of scale may be reduced. The Board reviewed relevant materials and discussed whether the use of breakpoints would be appropriate at this time. Noting the relative stability in asset levels in the Fund over the past year and the existence of the Adviser's ongoing expense limitation arrangements, the Board concluded that the advisory fee remained reasonable in light of the current information provided to the Trustees with respect to economies of scale.

Other Benefits

The Board considered the Adviser's representation that, aside from its contractual advisory fees, it does not benefit in a material way from its relationship with the Fund. Based on the foregoing representation, the Board concluded that other benefits received by the Adviser from its relationship with the Fund were not a material factor to consider in approving the continuation of the Advisory Agreement.

Conclusion

The Board did not identify any single factor as being of paramount importance, and different Trustees may have given different weight to different factors. The Board reviewed a memorandum from Fund counsel discussing the legal standards applicable to its consideration of the Advisory Agreement. Based on its review, including consideration of each of the factors referenced above, the Board determined, in the exercise of its reasonable business judgment, that the contractual

POLARIS GLOBAL VALUE FUND**OTHER INFORMATION****JUNE 30, 2026**

fee under the Advisory Agreement was fair and reasonable in light of the services performed or to be performed, expenses incurred or to be incurred and such other matters as the Board considered relevant.
